SURGE PROTECTORS - STANDARD, INTERNET

Standard

The standard surge protector is recommended for those users who want to protect their hardware against the basic risks that are most commonly found in work environments. It is the only model in EVER's surge protector range that comes with a 5-metre power supply cord.

- five power supply sockets with increased performance
- surge protection
- illuminated power switch with accidental switching protection
- 5 year warranty
- power cord lengths: 1.5m, 3m, and 5m

Internet

The Internet surge protector is recommended for those who often use the Internet. The model is additionally fitted with a filter that ensures the safety of the computer modem and digital phone installed.

- five power supply sockets with increased performance
- surge protection
- illuminated power switch with accidental switching protection
- 5 year warranty
- power cord lengths: 1.5m and 3m
- telecommunication filter
